TASK 2 STUDENT WORKSHEET

Zentangles

Name: _____

A Zentangle is an easy to learn method of creating beautiful images from repetitive patterns.

TASK

Your task is to create some interesting Textiles Zentangle patterns. You need to fill your page. In this box below, I would like you to create at least 8 different Zentangles. Use the images above as a guide. Get creative! You may wish to split your page into boxes to guide you, you can also work on the back of this sheet. I would like you to colour them using either; colouring pencils or your pencil for tonal shading.

AIM HIGHER

Try to shade or colour your zentangle using tonal shading. Tonal shading is a method of shading or colouring going from a dark pressure to a lighter pressure on the page.
